- Dispatch from the front lines: Homosexuality is in, and Big Business is cashing in!

**[Roll Amazon Kindle Commercial]**
- Among the various conflicts in the war for souls, this front never seems to see a lull:

**[Image 1]**
- The unrelenting push to normalize homosexuality.

**[Roll Amazon Kindle Commercial]**
- Some Big Businesses are looking to make a buck on this turmoil.

**Cam 2**
- More on that later.

**AUDIO**

**<< Cam 2 >>**
- First, some history:

**Scroll List of Names**
- In 2001 the Netherlands was the first country to legalize same-sex so called marriage.

**Belgium in 2003**
- Since then, many nations have followed suit.

**Spain and Canada 2005**
- The casualties thus far:

**South Africa 2006**
- Belgium in 2003...

**Norway and Sweden 2009**
- Spain and the whole of Canada in 2005...

**Portugal, Iceland, and Argentina 2010**
- South Africa in 2006...

**Denmark 2012**
- Norway and Sweden in 2009...

- Portugal, Iceland, and Argentina in 2010...

| GX: Vote Yes on Prop 8 | To give some background ... Proposition 8 was created by supporters of traditional marriage to prevent sodomite unions from being legally recognized as marriages.  

Prop 8 would have added a provision to the law that only marriage between a man and a woman is valid or recognized in California.  

This caused massive backlash from the homosexual community both in California and across the nation.  

<< Cam 2 >>

Donations from around the states and 20 foreign countries flowed into funding a propaganda campaign to spread the word to vote “No”, making sure Prop 8 never came to pass.

Some Politicians, like Gavin Newsom, the then Mayor of San Francisco, were so confident that Prop 8 would fail he made this comment:

..... [Video] .....  

Now here’s the clincher, even with all the campaigning and money from the homosexual community, Prop 8 passed.  

Californians voted down so-called same-sex “marriages”.

<< Steady Cam >>

You can imagine the uproar this caused among the homosexual lobby.

Mass protests took place across the state.

GX: Bigotry Won’t Stop us  

GX: Hell is Fabulous  

After more lobbying, funded by homosexual billionaires, and several lawsuits, the issue came to the California Supreme Court which struck down Prop 8 as unconstitutional and blew open the door for same-sex marriage across the state.

<< Cam 1 >>

Moving on from Prop 8, let’s focus on 2 major contributors to many same-sex causes: Jon Stryker and Tim Gill
Jon L. Stryker, born 1958, is an American architect, philanthropist, and social activist.

In 2012, Forbes Magazine estimated his net worth 1.2 billion U.S. Dollars ... he is the inheritor of a medical supply company known as Stryker Corporation and through this is a billionaire stockholder.

The same year he was named one of the 400 richest people in America by Forbes.

Stryker is founder of the Arcus Foundation, which contributes to causes like ape conservation and also LGBT Rights.

To date he has contributed almost a quarter of a billion dollars to these causes and recently dropped 23 million on Kalamazoo College in Michigan to open the “Arcus Center for Social Justice Leadership” which focuses on LGBT causes.

The Arcus foundation has partnerships with both the Ford Foundation as well as Rockefeller Foundation.

Stryker is known to fund and even create from scratch organizations whose sole purpose is to undermine the Catholic faith.

Here are a few excerpts from a report by LifeSiteNews on this issue:

“Proponents of gay marriage are smart – they create organizations to funnel their wealth to the causes they want to see succeed,”

The Arcus Foundation’s website lists several... “Catholic” projects under the heading “Religion and Values.”

The listings specifically describe plans to undermine Catholic Church teaching on sexuality from the inside.

...(In 2009 in Washington, DC)... The National Gay and Lesbian Task Force received $152,625 from the foundation for "a collaborative strategic planning process focused on building a pro-LGBT movement within the Roman Catholic Church in the U.S."
...In 2010 in Connecticut... On the Catholic education front, the Jesuit Fairfield University was granted $100,000 to “expand the current discussion on homosexuality within Roman Catholicism to include the diverse opinions of progressive Catholic thought leaders and theologians.”

...(In 2010 in Maryland)...the Woman’s Alliance for Theology, Ethics and Ritual was entrusted with $70,000 to create “a cadre of Catholic lesbian, bisexual and transgender women and their allies that would assume a leadership role within the Catholic community on issues related to gender, sexuality, [and] reproductive health.

<< Cam 1 >>

Jon Stryker means business, and he knows right where to put his money to create the most damage.

Another wealthy homosexual multi-millionaire with similar goals we will look at is Timothy Gill.

Mr. Gill is one of the creators of the company Quark, Inc, which became an extremely successful software company in the 80’s.

After selling his shares for a cool half billion, he took the proceeds and began funding “human rights” campaigns.

<< Steady Cam >>

“Human rights” has become veiled language for the homosexual cause.

<< Cam 2 >>
Gill's official involvement in “human rights” politics began in 1992, in response to the passage of Colorado Amendment 2 which prevented the state from protecting people based on sexual orientation.

By 1994 he had created the Gill Foundation based out of Denver, Colorado and has since become one of the radical left’s most potent political donors.

To date, his foundation annually gives at least 10 million dollars to various groups that support the LGBT cause, particularly so-called discriminatory laws that prevent same-sex couples from marrying.

In 2011 the Gill foundation disbursed more than $14 million dollars.

In 2006, media reports say Tim Gill and his associates poured $16 million into Colorado elections and ad campaigns to prevent pro-traditional marriage candidates from being elected.

Sources say that in 2004 his contributions were directly responsible for the flipping of the Colorado state legislature, securing a majority for the Democratic Party for the first time in 30 years.

Stryker and Gill, along with many others are helping lead the charge to eradicate any sense of morality this nation has left and rush it down the path to ruin and the diabolical loves it.

For more detailed information on both Stryker and Gill and their work we have provided links here.

The radical agenda of the homosexual lobby is so blatantly pervasive in today’s political landscape that one cannot go long without running into some form of it in the news.

But culturally, it is becoming more prevalent, even brazen, in its presentation as a valid alternative lifestyle.
As we’ve already covered, there are homosexuals in places of power with large sums of money to burn, but, what about the average homosexual individual or legally “married” couple?

While the homosexual elite use their financial power to change policy, the average income homosexual is bringing change to a different arena, namely, the consumer arena.

Therefore, why is the average homosexual buying power so large, compared to the general population?

Because homosexuals, particularly couples, are considered to have more income to burn on themselves because they don't generally have children, Big Businesses are going out of their way to create gay friendly feelings in the marketplace.

By extension, this is finding its way into homes across the globe.

From names like Bill Gates and Microsoft, and Oprah and her TV Channel Oxygen, to half of the Fortune 500 companies to name brands we all know and buy from:

- Home Depot
- Levi
- Target
- JC Penney
- Kenneth Cole
- Budweiser

And what is the cause of this?
The populace is being blasted through the television, radio, and magazines by homosexual propaganda, every communication form being taking advantage of in an effort to maximize profit.

As these lies flood consumers minds this radically deviant behavior, on both a conscious and subconscious level, is being normalized.

We live today in a world today where young children, 12 and even younger, are being brought into sexual deviancy because of constant bombardment from the media making them question if they might be gay or, at the very minimum, bring them into the thinking that it's “OK to be Gay”

This assault on reason and human dignity pours forth from the highest levels of the government and business.

The Gay lobby is aggressive in its pursuits of its twisted conception of human sexuality and will not stop until these lies are firmly entrenched in the minds of all mankind.

All efforts are being made by this anti-moral culture to snare minds into focusing on nothing but sex, and not only that, but deviant sex with the approval of governments and churches stamped on it, calling it “marriage”.

As Blessed Pope John Paul the Second put so eloquently,

“As Against the spirit of the world the Church takes up anew each day a struggle that is none other than the struggle for the world’s soul”. (Crossing the Threshold of Hope, 1994)

As Catholics, it is understood that we share in our Lord's mission.
That means being a sign of contradiction to the world, setting our noses to the grindstone and going out to share the faith, and by so doing, saving as many souls as we can.

<< Cam 1 >>

We were made for war and we must strive through faith and prayer towards the finish line that is Christ Our Lord.

Combating sexual deviancy in any of its forms isn’t easy, but then again, Crosses are, by definition, never easy.

By staying in a state of grace, offering Masses, praying the rosary as a family, speaking out about Our Lord, His Church and His Love to our loved ones, friends and coworkers we uphold our obligation to Our Lord to participate in His work.

<< Cam 2 >>

In the end, this could mean persecution, loss of reputation, loss of financial opportunity, and even loss of life.

This is gain if we take Our Lord at His word, and as faithful Catholics, we do.

Greater is He that is in us than he that is in the world.

With this Dispatch from the Front Lines, I’m Michael Voris
